

PRINCE SHAJI

Python Odoo Developer

Phone: +91 8547515273 | Email: princeshaji33@gmail.com

Location: Coimbatore, Tamil Nadu, India | LinkedIn: [prince-portfolio.vercel.app](#)

PROFILE

AI/Solution Engineer and Python Odoo Developer with 4+ years of experience in ERP development, AI integration, and business automation. Experienced in Odoo customization, REST/XML-RPC APIs, LLMs, RAG, and conversational AI solutions. Strong expertise in Python, PostgreSQL, and scalable application development for enterprise solutions.

SKILLS

Languages: Python, R, JavaScript, HTML, CSS

AI & LLM Technologies: OpenAI API, RAG, Prompt Engineering, Conversational AI, AI Agents, OCR, Generative AI, Large Language Models (LLMs), Fundamentals of Machine Learning (ML), and Deep Learning (DL)

Databases: PostgreSQL, MySQL, MongoDB, Cassandra

Frameworks & Tools: Odoo, XML-RPC, OdooSH, REST API, Git, Linux

Version Experience: Odoo v14, v15, v16, v17, v18

Big Data Tools: Hadoop, Spark

WORK EXPERIENCE

AI/Solution Engineer

Milan Digital | January 2026 - Present

- Designed and developed AI-powered solutions using LLMs, RAG, and conversational AI technologies.
- Built AI chatbots integrated with Odoo ERP for dynamic business data querying and automation.
- Integrated AI systems with Odoo using REST APIs and XML-RPC for real-time business operations.
- Implemented document analysis and AI-based data extraction systems using OCR and LLM models.
- Developed semantic search and knowledge-base chat systems using FAISS/vector databases.
- Optimized prompts and AI workflows to improve response accuracy and user experience.

Odoo Developer

Milan Digital | July 2024 - December 2025

- Developed and deployed Odoo modules for Projects, Timesheet, CRM, Sales, and Others.
- Integrated external applications with Odoo using XML-RPC and REST APIs.
- Collaborated with QA and business teams for module testing.
- Optimized PostgreSQL queries and implemented data indexing for performance gains.
- Worked with Odoo versions 16 to 18 on client projects.

Junior Odoo Developer

Codelayer Technologies | Aug 2022 - Jun 2024

- Designed and implemented custom workflows in Odoo for retail and healthcare domains.
- Customized modules such as Sales, Purchase, Inventory, Accounting, and others for client-specific needs.
- Provided post-deployment support, bug fixes, and performance tuning for live Odoo systems.
- Offered end-user training and technical support to improve Odoo adoption.
- Used Odoo versions 14 to 16 in production.

Data Science-Intern

TechCity Software Consulting Pvt Ltd| Aug 2021 - Oct 2021

- Assisted in developing machine learning models for classification and prediction tasks.
- Conducted exploratory data analysis using Python (Pandas, NumPy)

Process Associate

Nest Information Technologies Pvt Ltd| Feb 2020 - Nov 2020

- Collaborated with team members to streamline document processing and data entry tasks
-

EDUCATION

- St. Agnes College Mangalore | 2020 - 2022 | **MSc in Big Data Analytics**
 - Deva Matha Arts and Science College Paisakary | 2016 - 2019 | **BCA**
 - Sacred Heart HSS Payyavoor | 2014 - 2016 | **Higher Secondary**
-

PROJECTS

- **Eye Hospital Management ERP**
 - Developed a full-stack Odoo ERP for eye hospitals, handling patient registration, refraction, nurse workflows, doctor consultations, medical reports, and billing.
 - **Quarry ERP System**
 - Built an Odoo-based ERP system for quarry operations including fleet management, weighbridge integration, purchase/sales, inventory tracking, and multi-company support.
 - **Project & Timesheet Management**
 - Customized Odoo project module to support advanced task tracking, timesheet validation, and team reporting dashboards.
 - **Automatic Attendance Management System**
 - Created a machine learning-based face recognition system using OpenCV and Python to automate employee attendance.
 - **Skin Disease Detection**
 - Implemented an image classification model to detect skin diseases using ML algorithms and medical image datasets.
 - **House Price Prediction**
 - Developed a regression model using scikit-learn to estimate property prices based on housing attributes.
-

CERTIFICATION

- National Level Workshop on Artificial Intelligence
- AI Master Class Using Python – Pantech Solutions
- Machine Learning for All – Coursera
- MySQL Basics – Great Learning
